Because of limited resources, the S&I Salt Lake Area leadership has mandated that student enrollments in our two **daytime hub programs** be limited to **four Institute classes per week**. This means that students may choose to attend all four classes on Tuesdays at the Jordan Institute (still 11:00 a.m. – 4:30 p.m., just like at Granite), all four classes on Fridays at the Granite Institute, or any combination of Tuesday and Friday classes, provided they do not exceed four total daytime classes per week. It is very important to note that all our online Institute classes and evening Institute classes **do not count** toward this daytime hub class limit. The enrollment limit is only for the in-person daytime Institute programs at Granite and Jordan locations. Students may continue to take as many continuing education institute classes as they would like, including all online offerings.

While we know there are challenges that come with this change, we are also excited about the opportunities it brings. We look forward to welcoming new students into our program, helping our current students make new friendships, and continuing to provide a meaningful Institute experience for everyone.

Jordan Institute — 3431 W. Wights Fort Road, West Jordan

- *The Jordan Institute is adjacent to the SLCC Jordan Campus. As of Fall 2026, it will host a brand new "daytime hub" program for Adapted Needs institute students. We are excited for some of the great resources this will provide our students and are excited that this location will be a little closer for many of our students. The Jordan Institute building includes a full game room, basketball courts, and other amenities. It is also very accessible via public transportation.*
